 RESTART: /home/ubuntu/Desktop/UPWORK/10th Job Upwork/rectangleClient (1).py
****************************************************
Testing Rectangle and Point classes.
****************************************************
Creating Rectangle 0
Creating Rectangle 1
Creating Rectangle 2
Width cannot be negative or zero. Setting it to the default value of 1
Creating Rectangle 3
Height cannot be negative or zero. Setting it to the default value of 1
****************************************************
Checking rectangle count, should be 4.
Rectangle count:  4
****************************************************
Rectangles[0] before processing.
Top: 2, Left: 1, Width: 3, Height: 4, Bottom: 6, Right: 4, Area: 12, Perimeter: 14
--------------------------------------------------
Rectangles[0] after doubling width and height.
Top: 2, Left: 1, Width: 6, Height: 8, Bottom: 10, Right: 7, Area: 48, Perimeter: 28
****************************************************
Rectangles[1] before processing.
Top: 6, Left: 5, Width: 7, Height: 8, Bottom: 14, Right: 12, Area: 56, Perimeter: 30
--------------------------------------------------
Rectangles[1] after translating by (10,10).
Top: 16, Left: 15, Width: 7, Height: 8, Bottom: 24, Right: 22, Area: 56, Perimeter: 30
****************************************************
Rectangles[2] before processing.
Top: 10, Left: 9, Width: 1, Height: 12, Bottom: 22, Right: 10, Area: 12, Perimeter: 26
--------------------------------------------------
Width cannot be negative or zero.
Rectangles[2] after attempting to set width to -2.
Top: 10, Left: 9, Width: 1, Height: 12, Bottom: 22, Right: 10, Area: 12, Perimeter: 26
****************************************************
Rectangles[3] before processing.
Top: 14, Left: 13, Width: 15, Height: 1, Bottom: 15, Right: 28, Area: 15, Perimeter: 32
--------------------------------------------------
Rectangles[3] after resetting width and height to 15 and 16.
Top: 14, Left: 13, Width: 15, Height: 16, Bottom: 30, Right: 28, Area: 240, Perimeter: 62
****************************************************
Thanks for your patience! Goodbye
